The Law of Contract in South Africa
THIRD EDITION
Edited by Dale Hutchison, Chris Pretorius, Tjokkie Naude, Jacques du Plessis, Tomas Floyd, Luanda Hawthorn, Birgit Kuschke, and Catherine Maxwell
The Law of Contract in South Africa, Third Edition, offers a concise, accessible and rigorous introduction to the general principles of contract law in South Africa. The text presents fundamental principles within a clear and applied framework, and supports independent, enquiring and critical engagement with the subject matter. The third edition introduces a stronger focus on the impact of the Constitution upon contract law, specifically in relation to good faith, equity and public policy in contract, unfair contracts and unfair enforcement of a contract, and contains a substantially reworked chapter on contractual interpretation in light of recent developments.

Few topics have had a more profound impact on the study of Roman law in Britain than the lex Aquilia, a Roman statute enacted c.287/286 BCE to reform the Roman law on wrongful damage to property. This volume investigates this peculiarly British fixation against the backdrop larger themes such as the development of delict/tort in Britain and the rise of comparative law.

Philosophical Foundations of the Law of Torts
Edited by John Oberdiek, Rutgers University
This book will be of broad interest to those working in legal and moral philosophy. It examines central puzzles in understanding the law of torts, including the role of responsibility and strict liability, the place of corrective justice in tort’s moral foundations, and the role of law and economics in tort theory.

Foundational Principles of Contract Law
Melvin A. Eisenberg
University of California, Berkeley School of Law
This one-volume treatise sets out the principles and rules of contract law, placing an emphasis on what the principles and rules of contract law should be, based on policy, morality, and experience. This book offers a unique approach to contract law from a critical perspective, as an organic, dynamic subject.

Contract Law Without Foundations
Toward a Republican Theory of Contract Law
Prince Saprai
University College London
This monograph advances a theoretical account of contract law, grounded in value pluralism. Arguing against attempts to delineate branches of legal doctrine by reference to single unifying values, the book asserts that a field such as contract law can only be explained and justified by the interaction of a multiplicity of moral values.

Mitigation in the Law of Damages
Andrew Summers, London School of Economics and Political Science
Even though the mitigation of a loss in a tort or breach of contract case is now the most litigated doctrine in private law it still lacks a sound theoretical basis on which to regularly apply the doctrine. This monograph is the first to analyse its history and development and make a case for its lasting importance in common law systems.

COMPANY & COMMERCIAL LAW

The Federalization of Corporate Governance
Marc I. Steinberg, Southern Methodist University
This book focuses on the federalization of corporate governance in the United States from both historical and contemporary perspectives. At the outset, it is clear that state corporate law remains vital with respect to the propriety of substantive fiduciary conduct as well as setting forth the relations among and between the corporation, its fiduciaries, its shareholders, and its other stakeholders. Accordingly, the ensuing chapters focus on key aspects of state corporate law to illustrate the continued importance of state company law impacting corporate governance.

Re-Imagining Offshore Finance
Market-Dominant Small Jurisdictions in a Globalizing Financial World
Christopher M. Bruner, University of Georgia
In this book, Bruner canvasses extant theoretical frameworks used to describe and evaluate the roles of small jurisdictions in cross-border finance. He proposes a new conceptual framework that better captures the characteristics, competitive strategies, and market roles of those achieving global dominance in the marketplace - the “market-dominant small jurisdiction” (MDSJ). Bruner identifies the central features giving rise to such jurisdictions' competitive strengths - historical, cultural, and geographical - while reflecting development strategies pursued in light of those circumstances. Through this lens, he evaluates a range of small jurisdictions that have achieved global dominance in specialized areas of cross-border finance, including Bermuda, Dubai, Singapore, Hong Kong, Switzerland, and Delaware.

Sumptuary Regulation in Australia 1901-27
ATTA Doctoral Series
Volume 6
Caroline Dick, University of Wollongong
Part of the Australasian Tax Teachers’ Association (ATTA) Doctoral Series, Sumptuary Regulation in Australia 1901-1927 examines the post Federation period, between 1901 and 1927, to reveal that the sumptuary impulse was not only alive and well in the emergent modern Australia, but was transmuted by a new patrician elite into a form of social and legal regulation.

Micro, Small, and Medium Enterprise Insolvency
A Modular Approach
Riz Mokal, South Square Chambers; University College London; Ronald Davis, University of British Columbia, Alberto Mazzoni, Catholic University of Milan; President of UNIDROIT, Irir Mevorach, University of Nottingham, Barbara Romaine, Queen’s Bench, Canada, Janis Sarra, University of British Columbia, Ignacio Tirado, Universidad Autonoma De Madrid, and Stephon Madaus, Martin-Luther-University Halle-Wittenberg
This book reconsiders the treatment of distressed Micro, Small and Medium Enterprises (MSMEs). Recognising that insolvency systems traditionally suit larger enterprises, and that they do not always apply neatly to smaller entities, the book proposes a ‘modular’ approach designed to facilitate the treatment of smaller enterprises in distress.

This page contains a list of books and publications related to EU law. The books cover various topics such as the constitutional foundations of the EU, the normative challenges posed by its reach, the impact of EU law on its borders, and the legal diversity in European contract laws.

**EU Legal Acts**

*Challenges and Transformations*

Edited by Marise Cremona and Claire Kilpatrick, both at the European University Institute.

This volume explores the changing landscape of the EU's legal acts, focusing on the transformations and challenges to the EU's traditional legal acts, as well as those acts found at the margin of such traditional EU acts. The volume further explains the adaptability of the EU legal order, as well as the challenges facing it.

**EU Law Beyond EU Borders**

The Extraterritorial Reach of EU Law

Edited by Marise Cremona and Joanne Scott, both at the European University Institute.

This book analyses the impact of EU law beyond its borders, the use of law as a powerful instrument of EU external action, and some of the normative challenges this poses. The global reach of EU law is examined in policy areas of the environment, the internet and data protection, banking and financial markets, competition policy, and migration.

**Legal Integration and Language Diversity**

Rethinking Translation in EU Lawmaking

C.J.W. Baaij, Yale University.

The European pursuit for legal integration and language diversity poses a puzzling question: how can the EU create uniform laws in 24 official languages successfully? This book argues that the answer lies in elevating the English language version, and seeking literalism over fluency in aligning the other language versions.

From Maimonides to Microsoft
The Jewish Law of Copyright Since the Birth of Print
Neil Weinstock Netanel,
University of California at Los Angeles School of Law
From Maimonides to Microsoft traces the historical development of Jewish copyright law by comparing rabbinic reprinting bans with secular and papal book privileges and by relaying the stories of dramatic disputes among publishers of books of Jewish learning and liturgy. Professor Netanel describes each dispute in its historical context and examines the rabbinic rulings that sought to resolve it. Remarkably, the rabbinic reprinting bans and copyright rulings address some of the same issues that animate copyright jurisprudence today: Is copyright a property right or just a right to receive fair compensation? How long should copyrights last? What purposes does copyright serve? While Jewish copyright law has borrowed from its secular law counterpart at key junctures, it fashionstrikingly different answers to those key questions.

The Long Road to Sustainability

The Past, Present, and Future of International Environmental Law and Policy

Alexander Gillespie

University of Waikato

An examination of humanity’s quest for sustainable development over the last millennium, Gillespie’s well-timed work asks what economic, social, and environmental stars must be aligned for humanity, and its ecosystems, to survive.

The Oxford Handbook of International Law in Asia and the Pacific

Edited by Simon Chesterman, National University of Singapore, Hisashi Owada, The International Court of Justice, and Ben Saul, University of Sydney.

- The first comprehensive survey of international law to consider most Asian national jurisdictions
- Provides a thematic roadmap of international law in the Asia and Pacific regions
- Reviews key contributions of individual Asian states to the development of international law

This Handbook surveys how international law is applied and interpreted in the Asia-Pacific region. It explores Asia’s contribution to the development of international law and whether a distinct ‘Asian’ approach can be perceived.

The Oxford Handbook of the Sources of International Law

Edited by Jean d’Aspremont, University of Manchester, Samantha Besson, University of Fribourg Associate Editor Sévérine Knuchel

- Critically examines the doctrines, practices, discourses, and debates on the sources of international law
- Offers insight from well-established and respected academics, whose contributions seek to extend the limits of traditional thinking on the scope of international law itself
- Provides analysis through a dialectical structure with the first author directly addressing the issue, and the second offering critical comment and their own theoretical and analytical insights

This Oxford Handbook examines the sources of international law, how the understanding of sources changed throughout the history of international law; how the main legal theories understood sources; the relationship between sources and the legitimacy of international law; and how sources differ across the various sub-areas of international law.

The Long Road to Sustainability: The Past, Present, and Future of International Environmental Law and Policy

International Court Authority
Edited by Karen J. Alter, Northwestern University and University of Copenhagen, Laurence R. Helfer, Duke University and University of Copenhagen, and Mikael Rask Madsen, University of Copenhagen

• Systematically compares thirteen international courts operating in Africa, Latin America, and Europe, as well as on a global level
• Features commentaries by scholars and experts who grapple with the new approach to international authority that this book proposes
• Provides interdisciplinary and wide ranging analyses of various international courts and of international law more generally, including human rights, regional integration, international trade and economic law, harmonized commercial law, and international criminal law

International Court Authority challenges fundamental preconceptions about when, why, and how international courts become important and authoritative actors in national, regional and international politics. Examining global and regional bodies, this volume investigates how political and social contexts shape the authority of international courts.

International Law’s Objects
Edited by
Jessie Hohmann, QMUL and Daniel Joyce, UNSW
• Ground-breaking analysis of international law through a selection of different objects, which each shine light on its practice and meaning throughout time and in the modern world.
• Includes framing and analytical chapters illuminating the relevance and importance of objects to the development of international law.
• Represents a snapshot of international law through the eyes of leading and emerging scholars and practitioners of the discipline.
This edited collection expands our understanding of the theoretical and critical scope of international law by considering the discipline through the lens of objects. The relevance of each object for the development, impact, status, and authority of international law is examined, shedding new light on the discipline through the lens of objects. The objector rule in practice, how it should be conceptualised, and what its implications are for the binding nature of customary international law. This volume details how the objector rule emerged and operates, demonstrating the changing nature of sovereignty, and the role of international institutions.

Feminist Dialogues on International Law
Successes, Tensions, Futures
Gina Heathcote, SOAS, University of London
• First single-authored monograph on feminist approaches to international law.
• Provides a new contribution to feminist legal scholarship, drawing on gender theories and feminist methodologies in a cross-disciplinary manner.
• Relevant to feminist and non-feminist scholars alike, covering contemporary topics including the rise of expertise, the nature of legal authority, the impact of fragmentation on international law, the changing nature of sovereignty, and the role of international institutions.
Integrating mainstream international legal studies with critical feminist narratives, this book considers the manner in which feminist thinking has changed international law as well as how international law has remained impervious to key feminist dialogues.

Complex Battlespaces
The Law of Armed Conflict and the Dynamics of Modern Warfare
Edited by
Winston S. Williams, United States Military Academy, and
Christopher M. Ford, The Pentagon
The conduct of warfare is constantly shaped by new forces that create complexities in the battlespace for military operations. This inaugural volume of the Lieber Studies Series seeks to address several issues in the confluence of law and armed conflict, featuring chapters from world class scholars, policymakers and other government officials, military and civilian legal practitioners; and other thought leaders who examine the role of the law of armed conflict in current and future armed conflicts around the world.

The Use of Force in International Law
A Case-Based Approach
Edited by Tom Ruys, University of Ghent, Olivier Corten, Université Libre de Bruxelles, and Alexandra Hofer, University of Ghent
• Provides coverage of a range of international incidents, from well-known military interventions to lesser known targeted strikes and hostage rescue operations
• Develops our understanding of state practice by evaluating what the parties to a conflict believed the law to be at the time of the conflict
• Surveys key methodological approaches to the area
Since the adoption of the UN Charter in 1945, the use of cross-border force has been frequent. This volume invites a range of experts to examine over sixty conflicts, from military interventions to targeted killings and hostage rescue operations, and to ask how powerful precedent can be in determining hostile encounters in international law.

FOURTH EDITION
Christine Gray
University of Cambridge

- A brand new edition of this leading title on the use of force
- Thoroughly examines rapidly changing State practice in this controversial area
- Covers not only the use of force by states but also UN enforcement and peacekeeping action and regional action

This fully updated fourth edition clearly and comprehensively explains the law on the use of force in international law, including use of force by States, the role of the UN, and the role of regional organizations in the maintenance of international peace and security.

Internationalized Armed Conflicts in International Law
Kubo Macak
University of Exeter

- Provides the first comprehensive analysis of factors that transform a non-international armed conflict into an international armed conflict
- Advances an original autonomy-based model for the legal qualification of complex situations featuring more than two conflict parties
- Analyses the consequences of conflict internationalization with a specific focus on the regulation of combatancy and belligerent occupation under international humanitarian law

How does an internal armed conflict become internationalized? And what are the consequences for the application of international humanitarian law? Focusing on combatant status and the law of belligerent occupation, this book examines how international law applies to situations of internationalized armed conflict.

Literating Religions
An Essay on Human Rights, Courts, and Beliefs
Christopher McCrudden, Queen’s University Belfast

Human rights literature has tended to exclude religious foundations from the realm of human rights. This has led to a lack of progress which confuses our understanding of the relationship between human rights and religion: this book argues that by paying close attention to developments in human rights litigation we can make theoretical progress.

The Human Rights-Based Approach to Higher Education

Jane Kotzmann, Deakin University School of Law, Burwood, Australia

This book seeks to determine if there is still a place for the human right to higher education in the current international context. It compares and contrasts two general theoretical models that are used to frame higher education policy: the market-based approach and the human rights-based approach. It contributes to an understanding of the likely effectiveness of each approach to higher education provision in terms of teaching and learning. This understanding should enable the development of more improved, sophisticated, and ultimately successful higher education policies.

Corporations and Disability Rights: Bridging the Digital Divide
Neha Pathakji.
NALSAR University of Law, Hyderabad

This book explores the interplay between human rights of persons with disabilities and corporate obligation towards the creation of an inclusive and accessible Internet. It engages with the contemporary discourse on the nature of the right to access the Internet and contextualizes the same within the framework of emerging disability rights jurisprudence. It articulates that the existing digital divide is an extension of social injustice to persons with disabilities from the physical world to the virtual world. It is argued that conceptualizing the right to access the Internet as merely an enabling right is oversimplifying an otherwise complex issue. The book advances the argument that under disability rights jurisprudence, the right to access the Internet is a human right. In this context, it questions the role of corporations as gatekeepers of the virtual world, and investigates the extent and scope of corporate human rights obligations. The book offers a pioneering strategy to obtain compliance from corporations.

Human Rights and World Public Order: The Basic Policies of an International Law of Human Dignity
Second Edition
Myres S. McDougal,
Harold D. Lasswell,
both at Yale University, and
Lung-chu Chen.
New York Law School

As a classic text of the New Haven School of International Law, this book explores human rights and international law in the broadest sense, taking into account social sciences research while embracing all values secured, or consequently fulfilled, or needed to thus be achieved. The re-issuance of this venerable title, unvels this work to a new generation of scholars, students, and practitioners of international law and human rights.

**Tax, Inequality, and Human Rights**
Philip G. Alston, and Nikki R. Reisch, both at New York University School of Law

This book examines why taxation is central to the enjoyment or suppression of human rights in an age of rising nationalism, authoritarianism, and disillusionment with the traditional role of the state. Taxation and human rights are at the heart of debates about the appropriate balance in society between the public and private sectors, and ultimately the content of a new social contract.

Private International Law
A Case Study
V.C. Govindaraj
University of Delhi
Private international law or conflict of laws deals with cases that have cross-border implications. The question involved is which state has the jurisdiction to decide a case involving complex inter-territorial issues. Judges of the superior courts in India lean heavily on English case-law and on the views of renowned English jurists, like Dicey and Cheshire, in deciding cases on conflict of laws.
This book deals with cases that call for comment in the three main areas of the subject, namely the law of obligations, the law of persons, and the law of property. Besides cases that call for comment in respect of foreign judgments and foreign arbitral awards, as also the law relating to procedure.

The Foundation of Choice of Law
Choice and Equality
Sagi Peari
University of Western Australia
This book focuses on the subject of choice of law as a whole and provides an analysis of its various rules, principles, doctrines and concepts. It offers a conceptual account of choice of law, called “choice equality foundation” (CEF) which aims to flesh out the normative basis of the subject. It provides a justification of the nature and limits of such popular principles as party autonomy, most significant relationship, and closest connection. It also discusses such topics as the actual operation of public policy doctrine in domestic courts, and the relation between the notion of international human rights and international commercial dealings, and makes some suggestions about the ability of traditional rules to cope with the advancing challenges of the digital age.

Politics and Capital

Auctioning the American Dream

John Attanasio, International Academic Institute of Legal Process and Procedure

- Shows how recent Supreme Court decisions and campaign finance regulations map onto a pernicious and growing inequality in America
- Demonstrates that crucial campaign finance cases have created a new constitutional arrangement that has resulted in the rise in U.S. wealth and income inequality
- Proposes a principle of “distributive autonomy” which is necessary to ensure that participatory democracy retains its truly democratic elements

Using both theoretical methods and practical political analysis, this book shows how recent Supreme Court decisions and campaign finance regulations map onto a pernicious and growing inequality in America. John Attanasio puts forward a novel solution grounded in a new principle of personal autonomy. The solution Attanasio proposes is the principle of “distributive autonomy,” sharply contrasting it with the individualism of modern libertarian ideas, which have given rise to the radical inequality that reduces, rather than enhances, autonomy. A profound synthesis of theory and practice, Politics and Capital is crucial to understanding the ominous political and economic problems besetting twenty-first century America.

Prosecuting the President

How Special Prosecutors Hold Presidents Accountable and Protect the Rule of Law

Andrew Coan, University of Arizona

- First book on special prosecutors aimed at a general audience
- Contains many dramatic stories and colorful characters
- Explains the relationship between special prosecutors and democracy

Prosecuting the President explains what every American needs to know about special prosecutors, perhaps the most consequential and the most mysterious public officials of our time. For more than a century, they have struck fear into the hearts of Presidents, who have the power to fire them at any time. How could this be? And how could the nation have entrusted such a high responsibility to such subordinate officials? As this book shows, the answer is that special prosecutors serve as catalysts for democracy. By raising the visibility of presidential misconduct, they enable the American people to hold the President accountable for his actions. Ultimately, the choice is ours.

The President and Immigration Law

Adam Cox, New York University Law School, and Cristina M. Rodriguez, Yale Law School

• Presents a controversial, unique thesis about the relationship between the President and immigration law
• Prompts cross-cutting constitutional theory and institutional design debates
• Presents a novel theory of de facto delegation which will resonate in numerous other areas of law

The President and Immigration Law reveals how the President has become our immigration policy-maker-in-chief. By deciding how to enforce the law, administrations shape the polity, sometimes clashing with Congress. Rather than lament this dynamic as distorting the Constitution, the authors demonstrate how it can advance the law’s legitimacy and outline political principles and institutional devices to curb potential abuses.

Is Racial Equality Unconstitutional?

Mark Golub, Scripps College

For some, the idea of a color-blind constitution signals a commonsense ideal of equality and a new “post-racial” American era. For others, it supplies a narrow constitutional vision, which serves to disqualify many of the tools needed to combat persistent racial inequality in the United States. Rather than taking a position either for or against color-blindness, Mark Golub takes issue with the blindness/consciousness dichotomy itself. This book demonstrates how color-blind constitutionalism conceals its own race-conscious political commitments in defense of existing racial hierarchy, and renders the pursuit of racial justice as a constitutionally impermissible goal.

Women and Leadership
Deborah L. Rhode, Stanford Law School

- Offers the most recent, comprehensive account of women's barriers to leadership
- Draws on extensive research and a survey of prominent female leaders
- Explores the reasons for gender inequity in leadership and identifies compelling solutions

In Women and Leadership, the eminent legal scholar Deborah L. Rhode focuses on women's underrepresentation in leadership roles and asks why it persists and what we can do about it. Although organizations generally stand to gain from increasing gender equity in leadership, women's underrepresentation is persistent and pervasive. Rhode explores the reasons, including women's family roles, unconscious gender bias, and exclusion from professional development networks.

Who is to Judge?
The Perennial Debate Over Whether to Elect or Appoint America’s Judges
Charles Gardner Geyh, Indiana University
- Engages the popular debate on judge selection but argues that both sides are wrong, in pursuit of a moderated position between the poles
- Brings history, political science, psychological science, and law to bear in an interdisciplinary analysis of the issues
- Presents these ideas in a smart yet informal writing style that will be accessible for students and general readers
Who Is to Judge? tackles the judicial selection debate head on. Judicial politics expert Charles Gardner Geyh exposes the exaggerations of binary arguments in support of either elective or appointive systems, approaching middle ground and ultimately arguing that no single system of selection is optimal for all jurisdictions at all times.

OUTSIDERS

Why Difference is the Future of Civil Rights
Zachary Kramer, Arizona State University
- Details a new theory of civil rights for the modern era
- Opens up a fresh way of thinking about how to bring about equality
- Provides examples of people whose search for identity has been met with discrimination
Outsiders: Why Difference is the Future of Civil Rights seeks to change the way we think about identity, equality, and discrimination. Rather than concentrating on groups, this groundbreaking book argues that the next wave of civil rights law can change the course of history by focusing on the individual and arguing for the right to personality.

LAW JOURNALS FROM OXFORD UNIVERSITY PRESS

Current Legal Problems
Editors: Jeff King, Paul Mitchell & Kimberley Trapp
The Current Legal Problems (CLP) annual volume is published on behalf of University College London, Faculty of Laws. It is based on the Faculty’s annual lecture series that was established over sixty years ago. The lectures are public, delivered on a weekly basis and chaired by members of the judiciary. CLP features scholarly articles that offer a critical analysis of important current legal issues. It covers all areas of legal scholarship and features a wide range of methodological approaches to law. With its emphasis on contemporary developments, CLP is a major point of reference for legal scholarship.

Oxford Journal of Law and Religion
Editors: W. Cole Durham, Malcolm Evans, Peter Petkoff, Julian Rivers
The Oxford Journal of Law and Religion publishes a range of articles drawn from various sectors of the law and religion field, including: social, legal, and political issues involving the relationship between law and religion in society; comparative law perspectives on the relationship between religion and state institutions; developments regarding human and constitutional rights to freedom of religion or belief; considerations of the relationship between religious and secular legal systems; empirical work on the place of religion in society; and other salient areas where law and religion intersect.

Journal of Church and State
Editor: Dr. Jerold Waltman
The Journal of Church and State seeks to stimulate interest, dialogue, research, and publication in the broad area of religion and the state. JCS publishes constitutional, historical, philosophical, theological, and sociological studies on religion and the body politic in various countries and cultures of the world, including the United States. Regular features include notes on Church State Affairs, which reports current developments throughout the world, and a list of ‘recent doctoral dissertations in Church and State.’

The Oxford Handbook of American Sports Law
Edited by Michael A. McCann, University of New Hampshire School of Law

The Oxford Handbook of American Sports Law is a timely and engaging compilation of commentaries by leading experts on the most significant issues in US sports law. The book blends analysis of historical and contemporary controversies with prescriptions for how courts and lawmakers can reconcile the competing interests of leagues, owners, and players. The Handbook also establishes a foundation for future research on sports law issues. As technology and social media alter the ways fans, athletes, and team officials interact, legal doctrine will be challenged to adapt, and the Handbook both forecasts these debates and outlines where the law may be headed.

The Promise and Perils of Work in the Gig Economy

Jeremias Prassl
University of Oxford

- A critical and engaging exploration of the gig economy: its realities, its problems, and its wider implications
- Considers the variety of approaches and business models, and how these constantly evolve to meet new market demands and regulatory challenges
- Examines how the language of ‘gigs’, sharing, and collaboration disguises the reality of platforms reliant on a vast and under-employed on-demand workforce

Is crowdsourcing the future of work? This book offers a lively and critical account of the gig economy: its promises and realities, what is at stake, and how we can ensure that customers, workers, platforms, and society at large benefit from this global and growing phenomenon.

At the moment, judges will often have no way of knowing how judges sitting elsewhere are proceeding in relation to the size of discounts imposed for contributory negligence. This volume will assist lawyers and judges in ensuring that like contributory negligence cases are decided in a like way.
Civil Recovery of Criminal Assets
Colin King, University of Sussex, and Jen Hendry, University of Leeds

Non-conviction-based asset confiscation enables the State to seize ‘criminal’ assets without being subject to the usual procedural safeguards inherent in the criminal law. Although consistently upheld by the courts, this approach has not gone without criticism. This book offers a comparative, doctrinal analysis of this controversial power.

**Unconstitutional Constitutional Amendments**
The Limits of Amendment Powers
Yaniv Roznai, Radzyner School of Law, Interdisciplinary Center Herzliya (IDC)

- Provides full and in-depth analysis of the doctrine of unconstitutional constitutional amendment and its growing role in modern constitutional law
- Proposes a theoretical framework for constitutional unamendability and its judicial enforcement
- Presents a global approach, drawing on jurisprudential thinking from a range of examples around the world

Can constitutional amendments be unconstitutional? Using theoretical and comparative approaches, Roznai establishes the nature and scope of constitutional amendment powers by focusing on substantive limitations, looking at their prevalence in practice and the conceptual coherence of the very idea of limitations to constitutional amendment powers.

Politics of Ordinary
The Ethics, Law, and
Scarlet A
The Ethics, Law, and
Politics of Ordinary Abortion

Katie Watson, Northwestern University Feinberg School of Medicine

Although statistically common, and legal since 1973, abortion still bears significant stigma—a proverbial scarlet A. Fear of this stigma leads most of the women and men who are part of the 21% of American pregnancies that end in abortion to remain silent. This book brings the story of ordinary abortion out of the shadows and invites a new conversation about its actual practice, ethics, politics, and law. Katie Watson lends her incisive legal and medical ethics expertise to navigate wisely and respectfully one of the most divisive topics of contemporary life.

The Age of Culpability
Children and the Nature of Criminal Responsibility

Gideon Yaffe.
Yale Law School

Gideon Yaffe presents a theory of criminal responsibility according to which child criminals deserve leniency not because of their psychological, behavioural, or neural immaturity but because they are denied the vote. He argues that full shares of criminal punishment are deserved only by those who have a full share of say over the law.

Authority
Conflicts, Cooperation, and Transnational Legal Theory

Nicole Roughan.
University of Auckland

How can legal authority be explained beyond the sovereign state? Roughan argues that instances of transnational and international law, along with overlapping constitutional orders, should be regarded as having shared, interdependent, and relative authority.

Schreber’s Law
Jurisprudence and Judgment in Transition

Peter Goodrich.
Cardozo School of Law

Peter Goodrich evaluates Judge Schreber’s jurisprudence by analysing his Memoirs of my Nervous Illness (1903) and his interpreters in detail, and sets his work in the context of both the neo-Kantian pure science of fin de siècle German jurisprudence and 21st-century legal theory. In this way, Goodrich shows how Schreber’s work challenges the legal thought of his era and opens up a potentially vital approach to contemporary jurisprudence.

Dignity in the Legal and Political Philosophy of Ronald Dworkin
Edited by Samuel Khursheed, Lokendra Malik, both at Supreme Court of India, and Veronica Rodriguez-Blanco, University of Surrey.

This volume explores Ronald Dworkin’s thoughts on dignity where self-respect and authenticity play a key role. It also sheds light on contemporary judicial and moral conundrums, such as freedom of speech, freedom of religion, and the complex relationship between dignity, human will, and responsibility. The book, with contributions from eminent philosophers and thinkers from across the world, provides a detailed analysis of Dworkin’s work on dignity. Each essay in the volume interprets his rich jurisprudential work, and motivates legal philosophers, practitioners, and judges to understand, practise, and disseminate Dworkin’s jurisprudential thoughts.

Rule of Law in India
A Quest for Reason
Harish Narasappa, Samvad Partners, and Co-founder, DASH

This book seeks to understand the dichotomy between the theory and practice of rule of law in India. The author argues that India’s rule of law is unique in the post-colonial world encompassing many substantive concepts within it, contrary to the assertions of the liberals and thin theories. The practical challenges to the concepts of equality and certainty, both fundamental to rule of law, are explained in detail. The author argues that violence has replaced reason as the main tool in the discourse between citizens and the government undermining rule of law severely.

Liberalism and Distributive Justice
Samuel Freeman, University of Pennsylvania

Liberalism and Distributive Justice discusses liberalism, capitalism, distributive justice, and John Rawls’s difference principle. Chapters are organized in a narrative arc: from liberalism as the dominant political and economic system, to the laws governing interpersonal transactions in liberal society, to basic economic and political institutions that determine distributive justice.

A Duty to Resist
When Disobedience Should Be Uncivil
Candice Delmas, Northeastern University

What are our responsibilities in the face of injustice? As Candice Delmas argues, we have a duty to resist injustice, which is more important, sometimes, than our duty to obey the law. Drawing from the tradition of activists including Thoreau, Gandhi, and the Movement for Black Lives, Delmas conceptualizes and defends uncivil disobedience and explores its practices and limits. Delmas turns the traditional arguments for civil disobedience on their head, and lays out a clear argument for the duty to go beyond that to resist injustice, even by uncivil means, when necessary.

Law as an Artifact
Edited by Luka Burazin, University of Zagreb, Kenneth Einar Himma, University of Belgrade, and Corrado Roveri, University of Bologna

This volume assembles leading scholars from the continental and analytic leading scholars from the world to examine how their respective theoretical positions treat the artifactual nature of law. It explores what the claim that legal systems, norms, and institutions are artifacts, ontologically entails, and the consequences this has for philosophical accounts of law.

Legal Directives and Practical Reasons
Noam Gur, Queen Mary University of London

This book takes up a central question in jurisprudence: What difference can law make to normative reasons relevant to our actions? Following a critical examination of two competing models, an exclusionary model and a weighing model, Gur proposes a third way that aims to capture the strengths of both of these models while avoiding their pitfalls.

Equity
Conscience Goes to Market
Irit Samet, King’s College London

The law of equity is a unique junction where doctrinal private law, moral theory, and social perceptions of justice meet. By exploring the general principles that underlie equity’s intervention in the common law, this book argues that equity should be preserved as a separate body of law that aims to align moral and legal duties in private law.

Reconciliation and Reification

Freedom's Semblance and Actuality from Hegel to Contemporary Critical Theory

Todd Hedrick
Michigan State University

This book defends Hegel's concept of 'reconciliation' as the best understanding of human beings' emancipatory interest and presents "reification" as a systematic blockage to its realization. Drawing upon psychoanalysis and legal theory, it explores the extent to which recent theories (Rawls, Honneth, Habermas) succeed in spelling out how society could be organized in such a way that reconciliation between individual and society could be realized on something approaching a universal basis.

Extending Rights’ Reach
Constitutions, Private Law, and Judicial Power
Jud Mathews, Pennsylvania State University School of Law

Constitutional rights protect individuals “vertically” against government overreach, but may also regulate legal relations “horizontally” among private parties in most legal systems. In every constitutional system with judicially enforceable constitutional rights, courts must make choices about whether, when, and how to give those rights horizontal effect. This book is about those choices and their consequences. It offers three case studies, of Germany, the United States, and Canada, showing how the choices courts make about horizontal rights reflect existing normative and political realities and, over time, help to shape new ones.

HATE
Why We Should Resist it With Free Speech, Not Censorship
Nadine Strossen.
New York Law School
- Clearly explains the importance of continuing to protect the subcategory of "hate speech"
- Shows that laws restricting such speech do not effectively reduce the feared harms of "hate speech"
- Shows that non-censorial countermeasures, including the kind of robust "counter-speech" that has been increasingly vigorous throughout the U.S., is more effective than censorship in advancing the causes of equality and societal harmony.

In HATE: Why We Should Resist it With Free Speech, Not Censorship, Strossen dispels the many misunderstandings that have clouded the perpetual debates about "hate speech vs. free speech," and shows that the U.S. First Amendment approach effectively promotes all pertinent concerns: free speech, democracy, equality and societal harmony. This is a book on the processes of constitutionalizing India in which the role of enlightenment philosophy seems to have been most critical. Not only the British colonizers, the Indian nationalists also championed these ideas while charting out India’s future following decolonization in 1947. The study also confirms that the scene in independent India is not different since the enlightenment values continue to remain decisive in governance.

In Realms of Legal Interpretation, Kent Greenawalt focuses on how courts decide what is legally forbidden or authorized, and how context shapes their decisions. The problem, he argues, is that we do not, and never have, agreed exist on all the details of the standards United States judges should employ—like everyone else, judges have different ideas of what constitutes good common sense.

CONSTITUTIONAL & ADMINISTRATIVE LAW

Constitutional Democracy in Crisis?
Edited by Mark A. Graber, University of Maryland Francis King Carey School of Law, Sanford Levinson, The University of Texas at Austin, and Mark Tushnet, Harvard Law School

• Focuses on the pressing issue of the survival of liberal democracy and the nature of the threats it faces
• Showcases scholarly contributions that are topical, international, and interdisciplinary
• Examines crosscutting themes, including climate change, religious fundamentalism, terrorism, economic inequality, globalization, immigration, populism, and racism

To what extent is the world-including the United States-facing a serious threat to the protection of constitutional democracies? This collection brings together leading scholars to engage critically with the crises facing constitutional democracies today. The book is organized in four parts: background and world forces; and conclusions from the specific country studies; global themes and how the present situation arose; a selection is organized in four parts: background and world forces; The Free Speech Century
Edited by Geoffrey R. Stone, University of Chicago, and Lee C. Bollinger, Columbia University

• Commemorates the 100th anniversary of the decision that established free speech as we know it today
• Allows readers to explore the views of some of our nation’s most accomplished and most distinguished scholars
• Edited by two of America’s leading First Amendment scholars and written by a group of the nation’s leading legal scholars

In The Free Speech Century, two of America’s leading First Amendment scholars, Geoffrey Stone and Lee Bollinger, have gathered a group of the nation’s leading legal scholars (Cass Sunstein, Lawrence Lessig, Laurence Tribe, Kathleen Sullivan, Catherine McKinmon, and others) to evaluate the development of free speech doctrine since Schenk and assess where it might be headed in our post-Snowden era.

The Public's Law
Origins and Architecture of Progressive Democracy
Blake Emerson,
UCLA School of Law
The Public's Law shows how bureaucracy can advance democracy. It develops a Progressive understanding of law and politics from American thinkers’ transformation of German theories of the state, emphasizing that the state must provide the goods people need to participate in democratic politics. Using examples from the New Deal and the Civil Rights Era, the book develops a normative theory with implications for deliberative democratic theory, constitutional theory, and administrative law.

Le Moment Beccaria
Naissance du Droit Pénal Moderne (1764-1810)
Philippe Audegean and Luigi Delia

Modern criminal law originates in a book and its interpretations, in Cesare Beccaria’s ideas and in the debates they started. Those two sources interacted and now cannot be understood separately. This volume aims to introduce its readers to the history of the interactions, additions, displacements, dilemmas and advances created by those debates.

The Birth of Nomos
Thanos Zartaloudis, University of Kent

This is a highly original, interdisciplinary study of the archaic Greek word nomos and its family of words. Thanos Zartaloudis draws out the richness of this fundamental term by exploring its many uses over the centuries. Through a thorough analysis of extracts from a wide range of ancient sources, we gain a new understanding of nomos and its foundational place in the Western legal tradition.

Demon and Demigods
Death Penalty in India
Aparna Jha.
Supreme Court of India
The book is a personal narrative of the author on the death penalty. The author in this work recounts her experience, as a lawyer, of arguing a death penalty case. The book also critically examines the impact of death penalty cases that have developed the law on the capital punishment in India, and quotes the leading jurists on the subject.

The Myth of Judicial Independence
Mike McConville, and Luke Marsh, both at Chinese University of Hong Kong
This book contests the existence of ‘judicial independence’. It maintains that civil servants, historically and up to the present day, have advanced executive mission-crimp and eroded common law principles via their influence over the Judges’ Rules.

**Justice, Mercy, and Caprice**

*Clemency and the Death Penalty in Ireland*

Ian O’Donnell

University College Dublin

The book is a work of criminal justice history that speaks to the emergence of a more humane Irish state—a close examination of the decision to grant clemency to those sentenced to death between 1923 and 1990, addressing important issues of law and penology that are of continuing relevance for countries that use capital punishment.

Blackstone’s Police Investigators’ Q&A 2019
Paul Connor, Police Training Consultant
• Sit your NIE exam with confidence - our multiple-choice questions are all presented in the Type A format and based solely on the contents of the Investigators’ Manual
• Written in partnership with the Investigators’ Manual, with over 200 Q&As cross-referenced back to the official 2019 syllabus
• Each Q&A provides detailed and comprehensive answers, giving you the rationale for both correct and incorrect responses

Designed to test trainee investigators studying for the National Investigators’ Examination (NIE), this book presents over 200 multiple-choice questions set in same style of the exam. All answers provide detailed explanations and references back to the Blackstone’s Police Investigators’ Manual 2019 for further study and clarification.

SECOND EDITION

Cass R. Sunstein, Harvard
University School of Law

In Legal Reasoning and
Political Conflict, Cass R.
Sunstein, one of America’s
best known commentators

on our legal system, offers a bold, new thesis about

how the law should work in America, arguing that the
courts best enable people to live together, despite

everyone’s diversity, by resolving particular cases without

taking sides in broader, more abstract conflicts.

Whether discussing abortion, homosexuality, or free

speech, the meaning of the Constitution, or the spell

cast by the Warren Court, Cass Sunstein writes with

power, offering a striking and original vision of the

role of the law in a diverse society.

The Indian
Legal System

An Enquiry

Mahendra Pal Singh and

Niraj Kumar, both at

National Law University, Delhi

The proposed book is an

ttempt to understand the

existence of multiple non-

state legal traditions despite

the presence of a uniform legal system in India.

There is a significant gap that exists between the

state-legal system and the practices and preferences

of people belonging to different communities. In

order to understand this structure, the book goes

back to the history of legal system in India and tries

to identify the reason behind the prevalence of

these alternative modes. It studies some prominent

legal systems of pre-colonial India like the Mughals,

and further explores the way Indian legality was

transformed during the British rule. The study

maps the evolution and growth of the common

law system in India and takes into account the

factors that contributed to the strengthening and

acceptance of this system.
