Each year, the Oxford Journals Archive grows with the addition of prestigious journals that are published in collaboration with world-renowned societies.

The 2019 Oxford Journals Archive spans more than two centuries of academic research, from 1791 to 1995. It contains the backfiles of 251 titles, including 4 titles added in 2019. If you have purchased the Oxford Journals Archive or a subject archive in a previous year, your library users may be missing out on highly influential scholarship that puts present knowledge in context.

Explore the following pages for the journals that have joined the Oxford Journals Archive since your purchase.

Find out how to upgrade your archive by contacting your account manager, or contact your regional team:
