What is the Oxford Dictionary of National Biography?

The Oxford DNB is the story of Britain told through the lives of 55,000 men and women who have shaped the British Isles and beyond from the fourth century BC to the 21st century. What did Elizabeth I achieve? When was Geoffrey Chaucer born? Who were the influential figures in 20th-century photography? The Oxford DNB provides the answers, and is transforming research into every aspect of British past.

"An intellectual wonderland for all scholars and enthusiasts."

Tristram Hunt, The Times

The finest scholarship on the greatest people...

Many leading biographers and scholars have contributed articles to the Oxford DNB. Among these are members of the Order of Merit, Laureates of the Nobel Prize, and holders of knighthoods and other honours from the royal family, Restoration, and empire. They include Michael control, John同期, and others. For example, Paul Addison on Winston Churchill, Patrick Collinson on Elizabeth I, Sybil Connolly on Virginia Woolf, Christopher Ricks on T. S. Eliot, Robert Southey on Thomas Bewick, Fiona MacCarthy on William Morris, and others on Harriet Wilson.

"Paul Addison’s Churchill is a miniature masterpiece."

Piers Brendon, The Independent

Not just the great and the good...

People from all walks of life have a place in the Oxford DNB. Among these are people from all walks of life, from families and celebrities to artists, scientists, and politicians. For example, John Knox, the first minister of Scotland; Shakespeare, the playwright; and others. They include Charles Darwin, Karl Marx, and others who were key figures in the world.

"The Oxford DNB is a major work of reference, but it also contains some of the best gossip in the world."

John Gross, The Sunday Telegraph

Lives from around the world...

The Oxford DNB includes people from around the world who left their mark on the British Isles or the British Empire. Read about extraordinary figures such as Alphonse Daudet, a master of the famous novel; and others. They include Joseph Conrad, the master of the new novel; and others. For example, Joseph Conrad, the master of the modern novel; and others.

"The story of the family snapshot album of the island race... one of the biggest publishing ventures ever undertaken."

Godfrey Smith, The Sunday Times

The history of Britain from Land’s End to John O’Groats...

Entrepreneur and creator of the famous custard powder, Alfred Bird once tricycled from Land’s End to John O’Groats. The Oxford DNB is a wonderful place to discover local associations the length and breadth of the British Isles: from births in Belfast, and brides in Brechin, to burials in Bangor.

"A fine genealogical research tool that allows you to explore family history, heredity, and even ethnic identity."

Margaret Drabble, Prospect

Every story fascinates...

The Oxford DNB contains stories of courage, strife, commerce, the nation, and more. It also contains stories of the nation’s past and present. For example, the life and times of the Duke of Wellington, when he was seventy-seven and she was thirty. He turned her down.

"Every story fascinates. The new ODNB will enrich your life and the national life."

Matthew Parris, The Spectator
