Look Up Similes:  

Change each adjective below to its opposite, then fill in the second blank to make a common simile.

If you don’t know the answer, first look up the word on the left in the Oxford Primary Thesaurus to find its opposite, then look up that word to find a common simile where it occurs.

Example: as (ugly) pretty as a picture

1. as (slow) ............................................................... as a ...............................................................  
2. as (hot) ............................................................... as ...............................................................  
3. as (dirty) ............................................................... as a ...............................................................  
4. as (fat) ............................................................... as a ...............................................................  
5. as (weak) ............................................................... as an .............................................................  
6. as (wet) ............................................................... as a ...............................................................  
7. as (difficult) .......................................................... as ...............................................................  
8. as (crooked) ........................................................ as an .............................................................  
9. as (sad) ............................................................... as a ...............................................................  
10. as (alive) ............................................................ as a ...............................................................
