Tricky Plurals

Choosing the correct plural for words that end in –o can be tricky. For some words, you add just the letter –s, but for others you add–es. For example, the plural of zero is zeros, but the plural of hero is heroes.

Can you make up five funny phrases using the correct plurals of these words? Use at least two of the words below for each phrase.

Examples:
armadillos eating baked potatoes
happy hippos playing banjos
