International Early Years
First Steps in Lifelong Learning
Fulfilling your children’s potential

You know that children develop quickly in the early years and that a child’s experiences between birth and age five have a major impact on their future. We are here to help you build the secure, safe and happy learning environment that will ensure they flourish. Our range supports development in the essential skills required to offer children the best possible start in life.

Let us help you build your Early Year’s programme

Take a closer look at our selection of materials designed to provide coverage of the seven key areas of learning and development that shape children’s education and ensure ‘school readiness’*. Using our resources will ensure your teachers are equipped to deliver the broad range of knowledge and skills that build the foundations for good future progress through school and life.

*As outlined in the Early Years Foundation Stage (EYFS) Framework. These resources can also be used alongside other Early Years curricula.

“Developing a love of reading can be more important for a child’s educational success than their family’s socio-economic background.”

OECD, 2002*

### How to order

41
Find out why Oxford Reading Tree gives children the very best start and is used in over 130 countries.

- Introduce your children to this world-renowned programme which grows with them as they move up into primary school.
- More decodable readers than any other reading programme help them to link sounds and letters and to begin to learn to read and write.
- Over 300 character-based stories to choose from ensures plenty of opportunities for your children to experience a rich language environment.
- Levelling you can trust means that you develop your children’s confidence and skills in expressing themselves at the appropriate pace for them. This gradual progression is perfect for students with English as an additional language.
- Additional resources to help parents support their child’s development as a reader – allowing you to build a link between the child’s learning at pre-school and in the home.

This catalogue provides details of Floppy’s Phonics, Biff, Chip and Kipper Decode and Develop, Biff, Chip and Kipper Stories and Read with Biff, Chip and Kipper. For full details of Traditional Tales, Songbirds and Glow-worms, please visit our website.

[www.oxfordprimary.com/earlyyears](http://www.oxfordprimary.com/earlyyears)
Floppy’s Phonics enables you to begin your children’s journey to reading and understanding simple sentences. This tried and tested, step-by-step synthetic phonics programme builds the foundations for early reading and writing success:

- Each book introduces 3 to 4 sounds and provides consolidation activities.
- Long vowel sounds, alternative spellings and pronunciations are introduced as children progress.
- Inside cover notes to guide the teacher and parent on how to use the text.
Floppy’s Phonics Sounds and letters teaching sequence

The well-structured lesson plans outlined in the teacher resources means teaching early reading skills is a simple step-by-step process.

1. **Teach**
   Teach new sounds using the books and flashcards.

2. **Practise**
   Practise new and revised sounds and letters with the Activity Sheets in class or at home.

3. **Apply**
   Apply phonics taught using cumulative texts for reading practice and grapheme tiles for spelling practice.

4. **Consolidate**
   Consolidate learning using reading activities at the end of the books and CD-ROM activities to practise blending.

5. **Revisit and Review**
   Revise sounds with the flashcards and the frieze.

All of the resources you need for this teaching sequence are included in our Early Years Starter Pack 1, see page 40.

**AGES 4–6**
Practise phonics with our range of fiction or non-fiction readers

- **Fiction** offers decodable stories with all the humour and magic of the popular *Biff, Chip and Kipper* characters.
- Perfect for group work to develop listening skills.
- Or for one-to-one reading practice for more focused comprehension building.

- **Non-fiction** explores a variety of cross-cultural topics to build children’s knowledge of different people and communities.
- *Oxford Reading Tree* characters highlight key features and ask questions to help children interact with the text.
- Both Fiction and Non-fiction supports parents at home thanks to inside cover notes in every title.

### AGES 4–6

### New

*Oxford Level 6, The Bigfoot Mystery*

**Look inside**

*The magic took them in a forest with lots of tall trees. Biff saw a footprint in the mud. “Look at this,” she said. “It’s enormous!”*

*She put her own foot next to the footprint to compare. “What made it?” asked Kipper. “A bear?”*

**Exciting new adventures to inspire your children**
Talk about Biff, Chip and Kipper

Introduce children to the characters and settings of Biff, Chip and Kipper Stories with these fun, interactive resources.

Ideal for developing the communication and language skills children need to start on their reading journey

- **Audio and information hotspots** give background information on the characters and develop skills in communication and language by encouraging conversation and discussion.

- **Video presentations** of short stories help children to develop early recognition and observation skills.

- **Activities** aid comprehension and help develop children’s confidence and ability in expressing themselves.

- Designed for use with Oxford Levels 1–3.

- Part of the *Oxford Reading Tree* teacher resources bundle on Oxford Owl.

[www.oxfordprimary.com/earlyyears](http://www.oxfordprimary.com/earlyyears)
It can be difficult for parents to ensure that the learning they do at home with their children complements their experience while at pre-school. Yet an important part of your school’s role as an Early Years education provider is to ensure a strong partnership between teachers and parents. We have put together this selection of materials which help link school to home life and is ideal for use beyond the classroom.

**First Experiences with Biff, Chip and Kipper**

Prepare and reassure children facing new situations in a fun and sensitive way with this selection of 12 ‘First Experiences’ books*

- Kipper’s First Match 9780192736796
- Going to the Vet 9780192736819
- Going to the Optician 9780192736802
- Going to the Hospital 9780192736789
- Kipper’s First Dance Class 9780192736772
- Learning To Swim 9780198487982
- Going To The Dentist 9780198487944
- Going To The Doctor 9780198487937
- Starting School 9780198487951
- Going On A Plane 9780198487968
- Kipper’s First Pet 9780198487920

The home of children’s language

Oxford Very First Dictionary

AGES 4+

There is an Oxford Dictionary for every stage of a child’s learning. The Oxford Very First Dictionary, with its colourful clear layout and familiar first words, each with a simple definition and illustration, is a fun and easy way for young children to learn how to use a dictionary.

First Words Series

AGES 5+

This series provides a head start in learning another language, taking a picture-book journey through a day. Featuring familiar settings including getting ready in the morning, a birthday party, and inside the classroom.

Oxford International First Atlas

AGES 3–6

A simple introductory atlas with a narrative thread, encouraging young children in the international classroom to learn about their world.

Workbook also available 978 0 19 848021 1

Read with Biff, Chip and Kipper: Flashcards

AGES 3+

Young children learn best when they’re having fun! These full colour flashcards are an enjoyable way to learn and practise early reading skills.

Rhyming Games 9780198486657
Alphabet Games 9780198486640
Say and Spell 9780198486664
Word Games 9780198486633
Blast off on an incredible reading journey!

At the heart of Project X are exciting character stories illustrated using stunning 3D digital artwork with a real wow factor! In each of the series Max, Cat, Ant and Tiger make new friends, face different villains, use new gadgets and experience more amazing adventures! Children can’t wait to hear the next instalment...

Project X Origins is the guided reading strand of Project X, featuring:

- Comprehensive Guided Reading Notes for every book covering phonics skills, comprehension, vocabulary, fluency, spelling, grammar, punctuation and writing.
- Unique thematic clusters linking fiction and non-fiction provide key words in different contexts and encourage children to read a wider range of text types.
- A fantastic springboard for talk, drama and role-play.
- Plenty of ideas for cross-curricular activities.

First steps in independent reading

Project X Alien Adventures is the biggest micro-adventure yet for Max, Cat, Ant and Tiger and features plenty of stories to put your children on the path towards becoming independent readers.

- Fine levelling throughout to build children’s confidence and help them make progress
- 100% decodable – with small steps of progression in phonics to ensure children will be able to read these books independently, right from day one
- Plenty of support for both teachers and parents

Project X Alien Adventures Reception Teaching Handbook
Helps you to inspire a love of independent reading in your classroom.

Learning with multilingualism at its heart

This play-based course will ensure your multicultural classroom is the very best environment to nurture confident and successful English language learners.

- The adorable ‘Glitterlings’ characters love learning languages, helping you to promote a setting where all languages are valued, even when English is the main language being taught.
- Learning objectives clearly linked to the respected Early Years Foundation Stage Framework ensure your young learners flourish.
- Nine fun write-in Storybooks, which can be used in class and at home, help children to connect the English learnt in school with their home or second language.
- Perfect for both the Early Years stage of the PYP and the IPC Early Years curriculum.

Hello

Building a secure future in mathematics for every child

Children’s early experiences of maths have a huge impact on their later achievement. Our resources for Early Years give children a sound start to maths through playful and innovative activities both at pre-school and in the home.

1st Steps with Numicon in the Nursery Kit
AGES 3–5

This resource focuses on maths conversation with ideas to encourage mathematical development throughout the pre-school setting, which will help give children a sound start to their maths understanding. The Teaching Guide explains the key mathematical ideas and contains innovative, playful activities, which are set out in the following groups: mathematics on the carpet, water play, messy play, sand play, outdoor play, small-world play, tabletop play and at snack time.

For full details of kit contents, see our website.

978 0 19 8486909
Firm Foundations Kit  
(Group or One-to-One)  
AGES 4–5

Designed for all Early Years settings, this resource gives teachers practical ideas to develop children’s understanding of numbers and number relationships. The easy-to-follow programme of activities helps to develop children’s concept of number through learning the Numicon Shapes and patterns, recognising and ordering numerals and learning their values, and beginning practical addition and subtraction.

For full details of kit contents, see our website.

Group Kit  978 0 19 848691 6  
One-to-One Kit  978 0 19 848692 3

Numicon at the Seaside  
AGES 3–5

Through a series of illustrations and songs this resource introduces the Numicon Shape Patterns and activities with images of the seaside. The Group Kit is supplied with four small copies of the big book for sharing, a CD of the ten songs and a teaching guide. Perfect for use alongside the Numicon Firm Foundations Kit and 1st Steps with Numicon in the Nursery.

At home Kit  978 0 19 8487043  
Group Kit  978 0 19 848703 6

Assessment Tools linked to the EYFS provide a useful way of tracking pupils’ progress.
Creating a number rich environment

A big part of embedding Numicon is creating an interactive maths environment in the classroom – displays that pose questions and challenges that children can go back to day after day.

Go to our website or follow us on Pinterest for lots of ideas and downloads that you can use to create classroom displays. Here are a few examples of how these resources have been used.

Download shapes and numerals to create your own labels for anything from drawer fronts to coat pegs.

Using Numicon Shapes, coloured objects and number lines, you can create exciting activities that are always accessible.

Pose questions and let children post answers on an interactive maths display.

Create classroom signs and wall displays using the Numicon Shapes.
Supporting you in delivering child-centred learning

Each child in your classroom learns in a different way. Numicon helps you to set up activities and gives you the teaching support you need to ensure that they develop at a pace that suits them.

Child initiated and adult lead play
Children become confident with the language of maths, modelled by a teacher, and are able to engage independently in tasks where they can use it for themselves.

Playing and exploring
Numicon builds familiarity with number in playful situations.

Active learning
The essence of the Numicon approach is its focus on action as a key to understanding maths.

Assessing through observation
Teachers are comprehensively guided towards identifying the mathematical skills being acquired through the breadth of activities provided.

Creating and thinking critically
Children who learn with Numicon are constantly challenged to make connections and articulate what they have learned.

www.pinterest.com/oxfordeducation/numicon/
Inspire the next generation of Mathematicians!

Maths is all around us and BEAM’s foundation problem solving, reasoning and numeracy resources encourage the learning of mathematics through indoor and outdoor games, physical play and role play.

Playing with Maths
Playing board games really helps young children develop their number sense. These exciting board and interactive games feature appealing themes such as frogs, bears, dinosaurs and castles and allow for different levels of maths ability.

Playing the digital version helps children create a bridge between the concrete experience of handling real objects and the abstract world of the computer screen.

Playing with Maths Interactive
Based on the physical board games, Playing with Maths Interactive helps children have fun, solve problems and learn maths.

| Playing with Maths set 1 (3-4 year olds) | 978 1 906224 38 7 |
| Playing with Maths set 2 (4–5 year olds) | 978 1 90622439 4 |
| Playing with Maths interactive 1 (3–4 year olds) | 978 1 90622436 3 |
| Playing with Maths interactive 2 (4–5 year olds) | 978 1 9062 2437 0 |

Develop confidence and skills in counting, sorting, matching, patterns and more.

The exciting board games are supplied in a sturdy box with all the equipment and teacher notes that you’ll need.
Action-packed maths resources

Young children enjoy active, physical play; take a lot at these resources to help you create the ideal environment for learning maths both indoors and outdoors.

Maths Inside and Out and Maths Outside and In

A treasure trove of inspiration, these indispensable books each contain over 70 maths ideas and activities based on 12 workshop areas.

Be a Mathematician

Maths Outsides and Maths Outside and In

Each activity is fully cross-referenced to the EYFS curriculum and includes useful maths vocabulary and scaffolded learning.

Maths Inside and Out

Maths Outdoors

Maths Outdoors provides all the inspiration you need to make maths an integral part of your children’s games and activities.

- Develop children’s skills in counting, shape awareness, measures and data handling.
- Ensure progression with built-in observational assessments and cross-curricular learning objectives.
- Features games for groups of various sizes and addresses practical issues such as planning and weather-proofing.
Bring maths to life through stories and drama!

**Story Book Maths**
This engaging book uses traditional tales and storybooks as a creative approach to teaching maths. The book has seven sections: four relating to traditional tales and three to modern stories. Each section includes snapshot activities on all seven strands of the EYFS curriculum and one close-up activity.
- Develop speaking and listening skills in maths.
- Enrich children’s learning by linking mathematics to other curriculum areas.

**Maths in Stories**
Young children are captivated by stories and picture books. This book shows you how to set up a vibrant learning environment for maths, using stories and traditional tales which are mathematically stimulating.
- Identify the maths in stories and draw out and extend their potential.
- Ensure children develop skills in the language of maths.

**Let’s Pretend Maths**
Role play can fire up young children’s imaginations – so make the most of this mathematically! This book equips you to help children develop maths ideas and vocabulary as they fly around as a superhero or re-enact a favourite story. It is packed with practical ideas to develop maths play based on role-play scenarios.

**Animated Stories Interactive**
Interact with the characters on a whiteboard or at a computer with this easy-to-use software. Children follow the story on-screen and then help resolve a tricky situation that practises maths skills such as counting and estimating length.
- Set the right level of work for each child and ensure progression with each problem differentiated across two levels.
- Build important ideas in early maths such as number order.
- Develop basic computer awareness and simple mouse skills.
Hands on Number Bonds

These high-quality counting activities are set in contexts that young children particularly enjoy. Each set contains boards, counting toys and all the other equipment you need to model combining and partitioning numbers to 10. Make learning number facts fun!

Use a story context to give meaning to number bonds.

Help children understand the recording of simple number calculations.

The teacher’s notes contain full instructions.

Hands on number bonds interactive

This intuitive software contains 24 differentiated lessons, ideal for use on your whiteboard. You can also create your own lesson using the ‘toolbox’ – the possibilities are endless!
