Did you know that a cat’s sense of smell is almost 14 times stronger than a human’s?

In this module you will:
- find out how we are all the same and all different
- name the parts of the body
- learn about our senses.

Look at the picture.

What is the same about these people? What is different about these people?

Write down one thing that is the same about these people.

These people all have ________________________________
Same but different

Find out how we are all the same and all different.

The Big Idea

We are not all the same.

Are these people the same?

Every person is different.

We are all humans but we all look different.

As we grow, we get taller. Our faces and bodies change.

Draw your face.

We all have faces!

Now finish the labels.

Do all your friends like the same things?

We all like different things. This is another way that we are all different.

What is your favourite colour?

What is your favourite animal?

The Big Idea

We are not all the same.

Think about...

How is your face different from everyone else’s?

Fill in the missing words. One has been done for you.

We are all ____________.

We have some things that are the _____.

Word Bank
different same things
Our body

Name the parts of the body.

The Big Idea

We have names for the parts of our body.

Finish the labels for the parts of the body.

How many arms have you got?

How many toes have you got?

Match each part of the body with the correct word.

a arm  b head  c knee  d leg

Where are your eyes, ears, nose and mouth?

Draw lines from each word to the correct part of the face.

a eyes  b nose  c ears  d mouth  e hair

Find the words.

Word Bank

arm  leg  knees  head  ear  nose  fingers  
feet  toes  shoulders

Now turn to page 14 to review what you know.
The five senses

Learn about our senses.

The Big Idea

Our senses help us find out about our world.

Where are the kitten’s ears, eyes, nose and mouth?

Humans and animals have senses. Our senses help us to find out about the world.

What do we use our ears for?

Some things make a sound. Some do not.

Look at the pictures. Circle the things that make a sound.

What do we use our eyes for?

Do you think cats can see better than us?

We can see lots of different colours.

Colour the rainbow in.

What a human sees.

What a cat sees.

Drum

Book

Mouth

Cake

Table

Radio
Learn about our senses.

The Big Idea

We like to eat things that smell good and taste nice.

Taste

What is your favourite food?

Some food tastes salty and some food tastes sweet. We have taste buds all over our tongue. We use our taste buds to sense the difference between salty and sweet.

Which foods are salty and which foods are sweet?

a  b  c  d

Word Bank

salty  sweet

Smell

Smell is used for many things.

Name one thing that smells good to you.

Some animals use their strong sense of smell to find food to eat.

Some things do not smell nice. Can you think of any?

Touch

Look at these pictures.

Which things are safe to touch? Which things are dangerous to touch?

Fill in the missing words. One has been done for you.

We have five senses.

These are seeing, hearing, , touch and .
What we have learned about ourselves

**Same but different**

Circle the answer that is true for you.

1. Do you look like your brothers or sisters?  
   - Yes  
   - No

2. Do you look like your friends in the class?  
   - Yes  
   - No

3. Who do you look most like?  
   - my friend  
   - my brother  
   - my sister

I understand that we are all the same but all different.

**Our body**

Fill in the correct words.

My **fingers** are connected to my **h** ___ __.

My **hand** is connected to my **a** ___.

My **arm** is connected to my **s** ___ ___ ___.

My **toes** are connected to my **f** ___ ___.

My **foot** is connected to my **f** ___.

My **leg** bends at my **k** ___ ___.

---

**The five senses**

Answer the questions. Choose from the senses in the word bank.

1. Which two senses do you use most to find your way to school?  
   - seeing, __ and __

2. Which three senses tell you that food is bad and not safe to eat?  
   - __, __ and __

---

**Word Bank**

- hand  
- foot  
- arm  
- leg  
- shoulder  
- knee  

I can name six parts of the body.  

- Yes  
- No

I can name all the five senses.  

- Yes  
- No
