**Case Study – St Paul’s RC Academy, Dundee**

St Paul’s RC Academy began using Fresh Start in October 2013. In September 2013, 38 out of 104 pupils entered St Paul’s First Year (Year 7) with a reading age of nine and below.

Marèse Harte-Carroll, Principal Support for Learning Teacher said: “Ten of us attended the Fresh Start Training and it engaged every single one of us: we were totally buoyed after it, ready to start.”

“Our young people did not share our enthusiasm! They had lost confidence in their ability to read and their behaviour was difficult.”

On average, children made two years’ progress in eight months using the Test of Word Reading Efficiency.

“You can see the progress in the books; from scribbles to pieces of simply stunning writing. You can tell that they are proud and we are too — progress is beyond what we could have hoped for.”

**Comments from children in St Paul’s RC Academy**

“I had loads of good ideas but I couldn’t write them down on paper. Now I can.”

“I feel that my writing is much better and my reading is just superb.”

“I like working with a partner because they are always there to help.”

“Fresh Start is going to help me get the job I want when I’m older.”

Independent research by the Education Endowment Fund concludes that Read Write Inc. Fresh Start improves the reading age of secondary school children needing to catch up quickly.

The TES highlighted that children on the Fresh Start programme made on average an extra three months’ progress compared to a control group when taught over the same 66 sessions.
