**BEAM**

**Look Inside**

*BEAM* provides a range of resources perfect for additional practice on the key aims of the National Curriculum.

- **We Can Do It!** encourages children to learn how to use and apply maths to solve problems. Includes problem solving challenges for paired, group and whole-class work.

- **Can Do Problem-solving** provides a bank of problems for consolidation, ideal for homework or independent work.

- **Number Fluency** provides quick and easy lesson starters, plenaries and homework to help children’s fluency in the number systems and mental calculations.

- **Talk It, Solve It** encourages strategic thinking, featuring collaborative activities that require children to talk about problems as they solve them.

- **Maths Out Loud** provides speaking and listening activities, encouraging children to explain and justify their thinking. Key assessment points ensure progression.

How To Teach Even Better: An Evidence-Based Approach

In this new book, Geoff Petty explores what evidence-informed teaching is and, crucially, explains how teachers can put the concept into practice. Clearly presented and easy to read, this book offers practical guidance and support, helping to bridge the gap between the growing advocacy for evidence-informed practice and the needs of classroom teachers.

Paperback ● 216 x 138mm ● 240pp ● 978 019 841410 0 ● £15.99
(NEW – available 2018)

Evidence-Based Teaching
2nd Edition
