Consolidate maths learning

MyMaths is a time-saving, whole-school online resource for use in the classroom and at home. It is easy to use alongside any other maths resource to enhance lessons, enable independent practice and consolidate learning.

Pupils testing their maths knowledge

- Provides self-marking homework tasks that can be assigned to pupils
- Includes lessons which can be used in the classroom or by pupils at home
- Booster packs can be used to revise key areas
- Games help children to practise maths skills and encourage an enjoyment in maths
- Access for parents to strengthen the link between home and school
- Clearly matched to all UK curricula

“It is a fun and engaging way to get children excited about maths. They are more eager to try new things, and it’s super easy to set up and use.”

Meagen Smith
(Gordon Primary, Eltham)
Booster Packs

The Assessment Manager tool

Handy traffic light system is a quick way to monitor progress and review if pupils are on track to reach their goal.

Specific blocks of work designed as extra practice to boost pupils’ skills, fluency and confidence around specific areas of the curriculum, such as times tables understanding, and perfect to use as extra revision to prepare for national tests.

The curriculum selector tool lets teachers restructure the MyMaths library into their curriculum objectives.

Easily allocate specific curriculum-matching homework tasks.

Evaluate online: www.mymaths.co.uk
Individual portals for each pupil

Parents can also follow their child’s progress, check their homework requirements, and try the lesson content if they want to refresh their own maths skills.

Pupils can find their personal homework and revision tasks, check results, rate their understanding and see teacher feedback.

MyMaths Games

Motivate pupils to consolidate their maths skills while developing an enjoyment of maths.
