Unlock the curriculum for your parents

Gives parents answers to their most frequently asked questions – saving you time!

Top jargon busts provide the answers to parents’ most common questions.

Parents can find out how children are taught in school, and how they can support their child.

From the classroom to the kitchen table – help your parents develop their child’s learning at home.

There are lots of downloadable activity sheets from learning to tell the time to colouring in fun!

Makes homework fun with everyday learning ideas, from cooking with kids to car journey games.

"These are fantastic videos – all different aspects of literacy and some maths too." LAWN PRIMARY SCHOOL

Helpful videos clearly and concisely tackle some common tricky homework tasks.

Three simple next steps

1. Share the oxfordowl.co.uk/home link with new parents in your email newsletters
2. Download our information letter to share with parents at oxfordowl.co.uk/parent-letter
3. Don’t forget to share our Guide to Starting School oxfordowl.co.uk/starting-school

All the advice and activities on Oxford Owl for Home are curriculum linked and designed to be consistent with what’s being taught at school – and how it’s being taught!

Teacher Training & Professional Development

Expand your teaching toolkit with the Oxford Teaching Guides: an exciting new series of practical guides, written by teachers for teachers.

New editions of much-loved teacher favourites & new thinking by leading educationalists

Essential Teaching Skills, 5th Edition
Chris Kyriacou
“A highly readable, comprehensive survey of a range of teaching skills, very useful for both new teachers and the more experienced.”
Steven Ringworth, History PGCE Course Leader at Edge Hill University

Now fully updated, this classic introduction reflects important changes in policy, teaching skills, and classroom practice, including evidence-based teaching, assessment, and effective mentoring and professional development.

School Improvement Pathways subscription provides the structure, the research and the resources to drive improvement forward in your school - in an easy-to-use online system.

An easy-to-use online system
Access over 20 Pathways, covering whole-school, maths and literacy issues, including Parental Engagement, Mastering Mathematics, and Improving Phonics.

Instant access to the latest research
All Pathways include a ‘Background and Research’ section where you can find answers to key questions and overviews of latest research.

Adaptable tools to save you time
Editable tools, templates, exemplars and expert guidance support you every step of the way, with tools to track and report impact.

Share with your whole school
Resources are regularly updated in line with the latest research, including a growing library of over 300 school and expert Professional Development videos, which can be accessed by all staff.

Assessing Primary Writing. No More Marking’s digital subscription service, uses a Comparative Judgement approach to assess writing from Year 1 to Year 6. Proven to improve reliability and reduce teacher workload, Comparative Judgement can revolutionise writing assessment in your school.

- Reduce marking time – assess a whole year group in less than half an hour
- Increase accuracy – comparisons are more precise than traditional marking
- Benchmark performance – results are standardised against pupils from across the country
- Get meaningful results – holistic judgements help gain a shared understanding of what ‘good writing’ looks like

Assessing Primary Writing includes a writing age for every pupil - allowing you to spot quickly where interventions or more challenge might be needed.

We have been part of Assessing Primary Writing this year and it’s been a real chance to look at assessment from a different angle. The results have been a decrease in workload, greater staff discussion around writing and greater consistency of progress measures.

WILLIAM SHARPE, DEPUTY HEAD, THE QUINTA PRIMARY SCHOOL

Oxford University Press and No More Marking working in partnership
Oxford are delighted to be working in partnership with No More Marking to support schools in understanding how the Comparative Judgement approach can make a real difference to writing assessment across the key stages.
