A rigorous approach to Edexcel B with real student appeal

This brand new course, from a team led by Bob Digby, supports teachers and students following the Edexcel GCSE Geography B specification. As well as providing thorough and rigorous coverage of the specification, the resources are designed to engage students in their learning and to motivate them to progress throughout the course. The Student Book is endorsed for Edexcel.

- **Brand new** resources tailored to the 2016 specification, including support for **skills and fieldwork**
- **Clear page design** and **accessible language** which will appeal to all your students
- A complete package of support, with assessment materials, schemes of work, homework resources, a digital Student Book, and a **digital Teacher Handbook** all on Kerboodle
