Dynamic and student-friendly, for the 2016 specification

From a team led by experienced author John Widdowson, these resources for the 2016 OCR GCSE Geography B specification combine rigorous coverage of the content and skills students require to succeed in the assessment with an accessible and engaging approach that will enthuse and motivate them. The Student Book is endorsed by OCR.

- **Brand new** resources tailored to the 2016 specification, including support for geographical skills and fieldwork
- Clear page design and accessible language which will appeal to all your students
- Assessment materials, schemes of work, homework resources, a digital Student Book, and a digital Teacher Handbook, all on Kerboodle, provide a complete package of support
